

An architectural rendering of a modern medical center interior. The space is characterized by a large, multi-level atrium with a glass-enclosed upper level. The ground floor features curved, light-colored seating areas and a central walkway. The upper level has a glass railing and a green wall. The ceiling is white with circular green accents. The overall design is clean, bright, and modern.

INSPIRATIONS

DESIGN CONCEPT

Oklahoma State University Medical Center is located in Tulsa. The project is focused on the East and North lobbies of the hospital; these lobbies need to renovate to provide a welcoming space and solve some issues due to the skylight and large windows. With the goal to achieve a therapeutic and calming environment, two lobbies are designed with the inspiration of nature; the ideas are to bring nature and biophilic design into the space. The colors and finishes are inspired by the colors of tree, sky, and water. The analogous color scheme with blue, blue-green, green, and yellow helps to create an impression for the space and has positive influences on occupants and patient's recovery. All of these colors are also combined with natural stone, simple woodgrain, living plants, and geometric designs. The use of colors also helps creating an inviting and relaxing space for occupants. In addition, the automatic, cellular skylight shades are used in both lobbies to reduce the large amount of glare due to the skylight; it can effectively block light and reduce energy loss. The shades can be opened or closed with controlled system. The interior elements and signages throughout the space are also designed for wayfinding.

FURNITURE

STEELCASE- SIESTE

Steelcase Health
Sieste

With a clean, simple design profile, the Sieste collection of healthcare seating offers comfortable support.

FUNCTION THAT LASTS

Sieste is designed to withstand the rigors of high-traffic, high-functioning healthcare environments.

- Frames are constructed from durable hardwoods with reinforced steel seats
- Zippers and Velcro® closures make covers and components field replaceable
- Space between the seat and back accommodates ease of cleaning

PROVIDE CHOICE + CONTROL

Hospitalization increases feelings of vulnerability for patients and families alike, intensifying the need for choice and personal comfort in a space. People are challenged physically, cognitively and emotionally.

Environments that feel hospitable can help people deal with stress by supporting individual preferences and offering choice in postures, from sitting to lounging.

The Sieste lounge collection includes the following styles:

- single-seat
- loveseat
- sofa
- bariatric seating

Extra seat width and reinforcements provide comfort and support in the coordinating bariatric chair.

Coalesse: Circa lounge system

NORTH LOBBY

LUTRON AUTOMATED SKYLIGHT SHADES

- Tensioned shades are used as the solution for skylights in the east and north lobby. These cellular skylight shades with automated options can effectively block light and reduce energy loss.
- The innovative design from Lutron keep fabric panels taut and parallel to windows with minimal sag at a variety of slopes. It helps reduce light gaps around fabric, and maximize the view when open by eliminating cable guides that are typical in skylight shades.
- The frame is inside-mounted

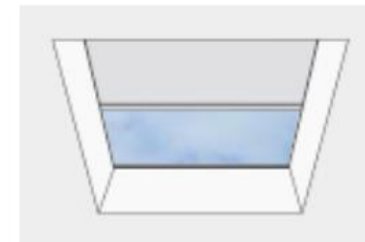

BEIGE/PEARL GREY 3%

Mounting Options

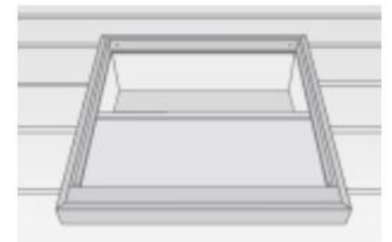

Lutron tensioned shades can be installed with surface, inside, or recessed mounts.

WAYFINDING CONCEPT

- The building floor plan with all rooms is labeled with names and numbers near the entry of each lobby to help occupants find the room that they want to go.
- The signages with room names and directions are put throughout the space for wayfinding
- The interior elements such as floor design and living walls are designed as a wayfinding in the space

The image is a high-quality architectural rendering of a modern interior space, specifically a lobby. The scene is characterized by large, floor-to-ceiling windows on the left side, which allow natural light to flood the space and offer a view of an outdoor area with trees and a building. In the foreground, there is a curved, light-colored sofa with a patterned cushion. To the right, a large, dark, textured pillar stands prominently. The background features a curved wall with a green wall panel and a circular table with chairs. The overall design is clean, minimalist, and contemporary.
