Attempts: 29 out of 30

_____ paths need to lead to common areas and areas that create more socialization for the resident.

Circulation	25 respondents	83 %	✓	
Something Else	4 respondents	13 %		
No Answer	1 respondents	3 %		
83% answered correctly				

Attempts: 30 out of 30

Because corridors need to be 42" wide, seating areas along corridors should not be benches along the wall because that would affect the path-

of-travel dimensions. These small alcoves also provide places where family members or staff can sit and visit with residents.
